Programming Languages

HTML/CSS
Arduino
Java

Operating Systems

Linux: Debian and Fedora
CentOS
Windows Server 2012/16

Technical Skills

Technical support
Troubleshooting
Networking
System Administration

Program Knowledge

Adobe: Photoshop
Illustrator
InDesign
Lightroom
Premiere Pro
VM: Proxmox
Virtualbox
Web: Apache/LAMP
Microsoft IIS
Wordpress

Education

Computing and Information Technologies

Rochester Institute of Technology

First year student focusing in Networks and Systems Administration. Member of the Computer Science House.

Expected Graduation: Spring 2022 (with co-ops)

Experience

Technical Assistant

2015-2017

Calvary Chapel Long Hollow

Performed numerous technical tasks and assisted with church operations. Built computers, optimized networks, performed technical support and computer repair, set up sound and light equipment, operated camera and sound equipment, and operated live streaming programs.

Courtesy Clerk

FEB. 2017-JUL 2017

Kroger Marketplace - Gallatin TN

Assisted customers by providing directions to various items in the store, improved customer product logistics by compartmentalizing purchases, and improved availability of shopping implements at various times throughout the day.

Projects

3D-Printed RC Car

In-Progress: Designing a remote controlled car using 3D printed components, powered by an Arduino microcontroller.
